Build Your Future in QIS

Quantum Information
Science (QIS) Career Fair

Wednesday, September 13
11:00 AM – 5:00 PM ET
(VIRTUAL EVENT)

Explore the wide range of career opportunities available at the **Quantum Information Science Career Fair!** We're inviting you — tomorrow's quantum scientists, engineers, and technicians — to hear from experts in the field, build your professional networks, get your questions answered, and meet one-on-one with potential employers from research centers, national laboratories, academic institutions, and industry.

The U.S. Department of Energy Office of Science's National QIS Research Centers designed this event for job seekers to explore the wide range of careers in the field. We will showcase opportunities available within the centers, national laboratories, academic institutions, and industry to help start you on your career path.
